

# SUNRISE 365™ RETAIL REPLENISHMENT

## OUT-OF-THE-BOX FOR MICROSOFT DYNAMICS 365

At the core of successful retail organizations is a very good supply chain. At the core of those very good retail supply chains is effective retail replenishment. Sunrise 365™ Retail Replenishment is a key addition for retailers considering Microsoft Dynamics 365, Sunrise Technologies, and the Sunrise 365™ Supply Chain solution.

As a retailer, it's a given that you're going to have some kind of retail replenishment plan. By choosing Dynamics 365 and Sunrise, you can take advantage of retail replenishment capabilities and embedded visual insights – without the hassle and cost of implementing another system.

## SIMPLE. ELEGANT. POWERFUL.

**Sunrise 365 Retail Replenishment** is a rules-based, data management tool that doesn't require any additional integration to Dynamics 365, giving retailers the functionality they need at a fraction of the cost of other inventory systems.

### MINIMIZE INTEGRATIONS

Instead of implementing a costly, third-party system, Sunrise 365 Retail Replenishment lets you store all your data in one place! It **requires no integrations** with the built-in Dynamics 365 POS and only minimal integrations to external POS solutions.

### EMBEDDED INSIGHTS

Don't let spreadsheets slow you down! Sunrise 365 Retail Replenishment uses Microsoft Power BI to **serve up near real-time visual insights**. Embedded throughout the solution, valuable, actionable information is always at your fingertips.

### OUTSTANDING VALUE

The beauty of Dynamics 365 is that all key functionality can be found in a single solution. Sunrise 365 Retail Replenishment builds on that foundation and makes it even easier for retailers to **get the most out of their investment**.
